

## VEKTOR | Stand-alone safety system for motorcycles

**Designation:** VEKTOR | Speed Camera Alert · Anti-Theft · Route Analysis

**SKU:** 60991000601

**TARIC number:** 8526912000

**Variants (SKU):**

-

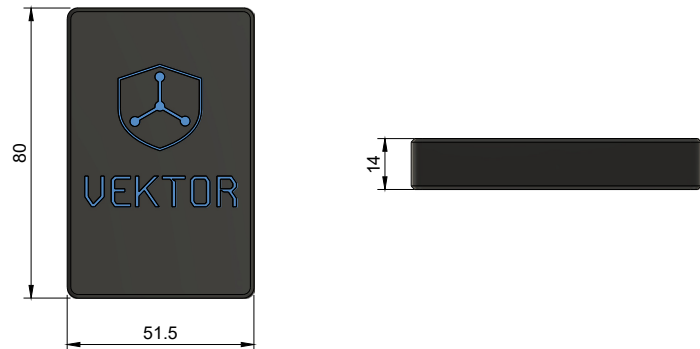

**Basic functions and intended use:**

VEKTOR is a traffic warning system that alerts drivers to relevant points of interest (POIs) via an LED display. The system combines an in-vehicle GPS receiver with a POI database and a web portal for configuration.

The system consists of the following components:

1. VEKTOR main unit (in-vehicle electronics)
2. LED head (separate LED display unit)
3. Option button (on the unit, for direct actions while driving)
4. VEKTOR portal (web portal for configuration, trip overview, and management)

**Appearance and dimensions [mm]:**

**Technical data:**

Supply voltage	5 V DC
Power consumption (average)	100 mA
Network technology	LTE-M, GNSS
Positioning accuracy	< 2 m
Ambient temperature during operation	-20°C bis +70°C
Storage and transport temperature	-30°C bis +80°C
Weather resistance	IP54
SIM card	IoT-SIM
LED	digital RGB LED

**Conformity:**

DIRECTIVE 2014/53/EU, DIRECTIVE 2014/30/EU and DIRECTIVE 2011/65/EU

**Disposal:**

Devices that can no longer be used should not be disposed of as a whole, but should be dismantled into individual parts and recycled according to the type of material. Components that cannot be recycled must be disposed of properly.
